3rd Symposium on Disorders of Sex Development
20–22 May, 2011, Lübeck, Germany

From Gene to Gender
• what we’ve learned and what we need to learn
• New Prospects in DSD Research

PROGRAMME

Opening Lecture
From Gene to Gender
• what we’ve learned and what we need to learn
• New Prospects in DSD Research
Speaker: G. Warne, University of Melbourne, Australia

Genetics
• New genes for DSD – CGH Microarray
Speaker: P. Wieacker, Westfälische Wilhelms-Universität Münster, Germany
• Old genes, much faster explored - DSDChip
Speaker: K. McElreavy, Institut Pasteur, France
• Beyond the genes: Epigenetic control
Speaker: P.M. Holterhus, Christian-Albrechts-Universität Kiel, Germany

Hormones and Action
• Co-Factors of androgen action
Speaker: R. Werner, Universität zu Lübeck, Germany
• New approaches to measuring hormones
Speaker: F. Riepe, Christian-Albrechts-Universität Kiel, Germany
• Urinary steroids: Sense and sensitivity
Speaker: W. Arlt, University of Birmingham, UK
• Pubertal outcome: Predicting changes
Speaker: I.A. Hughes, University of Cambridge, UK

Morphologic Variation in DSD
• Developmental aspects
Speaker: L. Baskin, University of California, San Francisco, USA
• Gonadal Development and Tumour Risk
Speaker: M. Cools, Erasmus University of Rotterdam, The Netherlands
• Surgical evaluation of DSD
Speaker: P. Mouriquand, HCL-Lyon, France
• Checklist for structural description
Speaker: L. Wünsch, UK S-H, Campus Lübeck, Germany

Clinical Aspects
• Outcome Studies
Speaker: U. Thyen, Universität zu Lübeck, Germany
• The logistics and ethics of databases
Speaker: S.F. Ahmed, University of Glasgow, UK
• Teaching DSD
Speaker: S.L.S. Drop, Erasmus University of Rotterdam, The Netherlands
• Research in DSD – beyond descriptive studies
Speaker: O. Hiort, Universität zu Lübeck, Germany
